

VOTE FOR THE GOOD OF SWEDEN

In an unsettled world, it can be difficult to imagine who you can really rely on. Who will assume responsibility and stand firm. Who will look after the best interests of the whole country.

We believe in the freedom of people to be able to make their own choices and have the power to make their own decisions. We believe in lower taxes and more entrepreneurship. We believe in the equal value of all people. We never falter when it comes to the independence of the rule of law and the principle of everyone being equal in the eyes of the law. We fight for the right of women to have equal opportunities. That you should be able to love whoever you want – and not be afraid of showing it. We know that there is a climate crisis right now and we want to do something about it with more renewables in the tank and green electricity in the home. This is a policy for the good of Sweden.

Do you want to safeguard the best interests of the whole country?

Vote for the Centre Party!

**FOR
THE GOOD OF
SWEDEN**

**A vote for the Centre Party
is a vote for the good of Sweden.**

To those who want the best for Sweden.

Sweden and the world are facing many major problems that need resolving. There are two paths to follow. Either more collaboration and assuming responsibility, anchored in the centre of Swedish politics. With powerful initiatives for the climate, equal opportunity and the country as a whole. Or letting populist forces characterised by distrust, finger-pointing and uniformity seize a controlling influence. Which path do you believe is the best one for Sweden?

The Centre Party is for those who care about real problems in everyday life – and want to do something about them.

Who want to do something about climate change before it's too late.

Who want to see more jobs and businesses all over the country, not just in the big cities.

Who want to stop men inflicting violence on women.

Who want society to focus more on getting to grips with mental illness among children.

Who believe that Sweden, just like other countries, has a compassionate obligation to help people who are fleeing from war.

Who believe that we need more collaboration, not less.

Who want the best for Sweden.

Choose a green, liberal party that wants to collaborate in the good of Sweden – choose the Centre Party!

FOR THE CLIMATE, EQUAL OPPORTUNITY AND RURAL AREAS

FOR THE GOOD OF THE CLIMATE

The climate transition needs to be speeded up. Sweden can and must lead the way. We must reduce emissions and invest strongly in new, green jobs.

- Cut emissions dramatically
- Focus on locally produced food for the sake of the climate
- Speed up the expansion of renewable energy

FOR THE GOOD OF EQUAL OPPORTUNITY

There must be equal conditions for men and women. So women's wages need to increase and more glass ceilings must be shattered.

- Safety from violence for all women and children
- Create an equal healthcare service throughout the country – with world-class maternity care
- Focus on equal pay and boost entrepreneurship among women

FOR THE GOOD OF RURAL AREAS

The rural areas are the very foundation of Sweden. The whole country. The conditions exist there for new jobs, our production of food and renewable fuels.

- Make it easier to start up and run businesses, creating jobs all over Sweden, not just in the big cities
- Make sure there are good roads, railways and broadband all over the country
- Make it easier to build and settle in rural areas
